

Employee Spotlight

Teri Curtis

Patient Representative

If things are in order and going smoothly, Teri Curtis probably has had something to do with it. It is clear she enjoys what she does and loves the people she works with. Her compassion, patience and desire to help others are a few of the reasons she is such an asset to Midwest Medical Center and the Galena-Stauss Senior Care Community.

Teri began working at MMC in the Physical Therapy department as an aide/receptionist. In her current position as Patient Representative, she answers billing questions for the hospital and clinic and sends out all the claims for the Midwest Health Clinic. She finds her job exciting because she never knows just what she will be doing each day. For Teri, helping people with their bills, especially older adults, is very rewarding.

Teri enjoys spending quality time with her family, four wheeling, and cooking new recipes. In recognition of her many contributions to MMC, we proudly designate Teri Curtis *Employee of the Month*.
