

Employee Spotlight

Joyce Hartman

Homemaker, Assisted Living Center

In Galena-Stauss Senior Care Community's Assisted Living Center, it's often the small, day-to-day things that are the most important. That's why Joyce Hartman is being recognized as this month's Employee of the Month.

With a positive attitude, Joyce recently took time out of her Sunday off of work to pick up prescription medication for a tenant. Gestures like these do not go unnoticed. Said a co-worker of Joyce, "We're glad to have her in Assisted Living."

Joyce came to the Senior Care Community originally by way of her father, a client of the Adult Daycare program. Joyce was so impressed with the care and service provided that she began volunteering at the Adult Daycare Center. Later, Joyce's hard work lead to a job opportunity as Homemaker in Assisted Living.

Joyce's position is challenging, but ultimately rewarding work. On any given day, she could be serving prepared meals, providing personal care, or facilitating outings and activities. Joyce enjoys her job and work place, calling her co-workers "like family" and her workplace "warm and friendly."

Outside of work, Joyce enjoys walking, shopping, and spending quality time with family.
