

# Employee Spotlight

## Michelle Schuetz

*Lab Technician*

November's Employee of the Month has no problem keeping busy. Michelle Schuetz, our winner, is a mother, teacher, and lab technician here at Midwest Medical Center.

"I am fortunate to have a job that is flexible," says Michelle, who home schools her boys and is a "leader in the Tri States Home School Group." As a mother, Michelle works hard to take care of her children through "gluten free cooking." She jokes that "keeping a meal on the table with growing boys is a challenge."

While on the job, Michelle works hard in the lab. She finds the experience of lab work exciting, saying, "You never know what's going to happen. Things can change quickly. The work load changes from routine to stat and that keeps things interesting." But the bottom line is, Michelle finds it rewarding to be a part of the Midwest Medical Center's staff. "I work with a great group of people," she says.

Michelle also makes sure to take some time for herself. She enjoys staying active by hiking and bicycling outdoors and relaxing with a good book. Michelle is also involved with her church where she teaches a Sunday school class.
